Executive Summary

The Kalgoorlie-Boulder Urban Landcare Group (KBULG) is a community-based Environment and Conservation Organisation.

The group has been working to improve the environment in and around Kalgoorlie-Boulder for almost 50 years. KBULG is a registered Charitable Organisation.

VISION

KBULG's vision is to work for a "better environment and better lifestyle" for the people of Kalgoorlie-Boulder through "collaboration, education and participation". While Kim's personal motto is "Connecting People to Parks and Nature."

GOALS

1. To remain the leading environmental group in the Goldfields.
2. To facilitate Kalgoorlie-Boulder becoming a more environmentally aware community.
3. To inspire the Kalgoorlie-Boulder community to be environmentally active.
4. To ensure the sustainability of KBULG.

I am pleased to present the Annual Report for the Kalgoorlie-Boulder Urban Landcare Group (KBULG) for the financial year ending 30 June 2022.

The KBULG team is delighted to once again look back at an extremely successful and eventful year, despite the continued upheaval of the Covid-19 pandemic, the organisation achieved all its ambitious goals, and much more! We are grateful to the community of Kalgoorlie-Boulder for wholeheartedly supporting and attending our many annual community awareness/education events during the past year.

We are sincerely impressed by the enthusiastic commitment of the city's residents to contribute to a "Better Environment, Better Lifestyle". KBULG once again entered our city in to the State Tidy Towns Sustainable Communities Awards. We were excited to be a finalist in the "Community Action and Wellbeing Category" – for our ongoing community projects, supported by CKB and industry partnerships. Whilst we didn't win, I was awarded the State's Leadership Award, for leadership in achieving environmental outcomes through partnerships with Council, business and community. This saw KBULG receive \$500 and I received online e-learning courses through the Australian Institute of Management WA.

Over the last year KBULG has continued to increase its visibility across the region by supporting many other organisations and their events, by proposing new collaborative partnership projects, and by getting involved in other agencies' existing projects. Our group's ongoing success and accomplishments are largely attributed to wonderful working relationships with our partners, sponsors and friends. Long-term mutually beneficial relationships with our immensely valued sponsors are the key to the success of our community engagement projects.

As always there is more work to do and we will continue to engage the community through our annual events, projects and activities, whilst using every opportunity to grow our involvement in the community. Now that we seem to have seen the worst of the COVID pandemic, we look forward to getting back to somewhat normal.

Thank you to each and every one of you who have been part of our projects, activities and events over the last year. Thank you for your enthusiasm, motivation and dedication, which make it possible for us to continually, year on year, accomplish our milestones and goals for creating a "Better Environment and Better Lifestyle" for the people of the Goldfields.

I would also like to sincerely thank our dedicated KBULG staff team (past and present), the committee, members, partners and sponsors (both financial and in-kind). I really appreciate your enthusiastic support and constant input and am looking forward to continuing working with you this year to develop and implement many more rewarding community events and projects.

P.S. Goldfields Dust Abatement Committee (GDAC), from which KBULG originally morphed, started 50 years ago next year, so stay tuned for the celebrations in March 2023.

Many Thanks and Regards,

*Kim Eckert CEO
OAM GAICD*

Achievements

JUNIOR LANDCARE	Kalgoorlie-Boulder Primary schools were involved in the Junior Landcare Programme this year through KBULG conducting Bushwalks through Karkurla Bushland Park and Tree Planting Projects with the schools. KBULG also presented talks at schools and participated in school expositions.
NEWSLETTER	KBULG continued to produce two community newsletters which were published as four pages, including a full page centre spread in Saturday's Kalgoorlie Miner. With approximately 15,000 copies printed, we are reaching a wide audience.
RECONSTRUCTED ART COMPETITION	The rECONstructed Art Competition & Exhibition in November 2021 encouraged members of the community to source and utilise waste products and materials to create innovative pieces of art. Reduce—Reuse—Recycle, celebrated as part of National Recycling week and exhibited at the Museum of the Goldfields.
CLEAN UP DAY	KBULG again hosted the "Clean Up Kalgoorlie-Boulder Day" in conjunction with Clean up Australia Day. In March 2021 over 100 residents of the community cleaned up bushland west of Waverley Street, collecting 12 tonnes and 200 bags of waste.
TIDY TOWNS & SUSTAINABLE CITIES AWARDS	KBULG entered Kalgoorlie-Boulder into the 2020-2021 Tidy Towns Sustainable Communities Awards and was finalist in the "Community Action and Wellbeing Category". Kim Eckert, CEO, was awarded the Tidy Towns Sustainable Communities 2021 State Leadership Award.
SUSTAINABLE GARDEN QUEST	KBULG held its annual Sustainable Garden Quest in September in conjunction with the major sponsors Kalgoorlie Miner and Water Corporation. The competition focused on all aspects of creating and maintaining a sustainable garden, the overall appearance, colour and tidiness of gardens and verges.
COMMUNITY TREE PLANTING DAY	KBULG coordinated the annual Community Tree Planting day in conjunction with the City of Kalgoorlie-Boulder and core sponsors. The site for 2021 was an area between Centennial Park and Meldrum Avenue that backs onto Gribble Creek. Over two hours, 3500 seedlings were planted by approximately 150 volunteers.
NATIVE PLANT GROUP	Participants in the KBULG Native Plant Group in 2020/2021 propagated local natives from seed & cuttings. Plants grown by the group were distributed to local schools and community groups free of charge. The Native Plant group meetings were adjusted in consideration of Covid-19 restrictions in terms of size, and moved to Saturday instead of Sunday.
KARKURLA BUSHLAND PARK	KBULG continually supports the Kalgoorlie-Boulder City Council with the park management, along with organising bush walks, tree plantings and school projects. Improvements to the park over the last few years include pedestrian counters and a new boardwalk bridge constructed from recycled plastic.
GIFSA	KBULG continues to support the Goldfields Individual Family Support Association (GIFSA) through encouraging people living with disabilities and their carers to further develop interests & training opportunities at the Karkurla Community Nursery.
SCATTER THE SILKY PEAR	This program enables tourists to pick up a brochure and a packet of Karkurla seeds (for a small donation) from the Kalgoorlie-Boulder Visitor Centre and scatter them at designated locations within Karkurla Bushland Park. Funds from seeds sold contribute to projects within Karkurla Bushland Park.
REGENERATION ZONES	A series of fenced Regeneration Zones encompass an area of approximately 3,500 hectares around Kalgoorlie-Boulder. The Regeneration Zones safeguard habitat fragments for endemic species with locally restricted habitats such as rare <i>Eremophila</i> species. KBULG carries out continuous awareness-raising through the media and the organisation's newsletter, educating the community to preserve the buffer zones' environment. KBULG also undertakes strategic audits of the regeneration zones, evaluating the adequacy of existing fencing and identifying issues arising from illegal rubbish dumping and weed infestations.
PUBLIC AWARENESS AND PROMOTION	KBULG frequently gets out and about within the community to promote the local environment and the importance of living sustainably. This is achieved by attending community events like the Spring Festival, KBCCI Community Expo, schools and public/group forums, in addition to KBULG's own education and conservation events/projects.
RECYCLING	KBULG continues its ongoing support of the City of Kalgoorlie-Boulder with community awareness promotion and education in regard to waste cycle management, with a particular focus on recycling. KBULG constantly promotes for business and commercial recycling in the Kalgoorlie-Boulder area, including the highly successful Containers for Change program.
MEMBERSHIP	KBULG consistently promotes its services, projects & activities throughout the community and continues to welcome new members. In 2021-2022 we had over 630 members.

Sponsors and Partnerships

Educate  Communicate  Participate

To achieve all of the organisation's goals and objectives KBULG is strongly reliant on the support of its core sponsors: The City of Kalgoorlie-Boulder and Northern Star Resources - Kalgoorlie Operations. We have received additional support from Keep Australia Beautiful WA, Evolution Mining, the Department of Water and Environmental Regulation and The Water Corporation, Rotary and Cleanaway.

These organisations collaborate with KBULG and work in partnership with us to achieve our vision of a “Better Environment and Better Lifestyle” for the people of the Goldfields.

Our sponsors meet the continuous funding needs required for the implementation of all of KBULG’s projects including Junior Landcare activities, tree-planting events, the publication of KBULG’s Community Newsletters, upkeep of Karlkurla Bushland Park, operation of Karlkurla Community Nursery, regular Native Plant Group Meetings, Regeneration Zone Management and numerous other projects and activities in addition to KBULG’s general administration duties.

Our core sponsors are vital for maintaining the profile, respect and credibility that we hold within the community. KBULG maintains strong links and working relationships with all of our core sponsors, mining companies and businesses in the region, who provide in-kind support to our programs and initiatives.

All of KBULG’s projects are built on partnerships that facilitate mutually beneficial outcomes.

KBULG acknowledges the integral role of sponsors to the group’s successful operations whenever the opportunity arises.

The KBULG committee comprises a large and diverse group of individuals, and includes representatives from government, local industries and interested members of the community.

The elected Committee supports and guides the KBULG CEO in relation to any arising issues, along with offering advice on project management decisions, as required. The committee also provides input in regards to the group's strategic planning and overall direction.

KBULG employs a fulltime paid CEO. Kim Eckert has been employed within this position since January 2013. Kim is accountable for the day-to-day management and coordination of the organisation, under direction from the KBULG committee.

The KBULG CEO is responsible for developing and maintaining successful avenues of community liaison through reaching a high diversity of groups and organisations, consequently involving community members from all socio-economic backgrounds. The CEO ensures that projects are adequately devised, implemented, maintained and monitored. Major tasks overseen by the CEO include project development and funding, public education and coordination of community events. KBULG's staff also liaise with the Council, schools, government departments, sponsors and the media on local landcare projects and issues.

The Kalgoorlie-Boulder Urban Landcare Group coordinates and promotes many projects and is associated with many activities around the City of Kalgoorlie-Boulder. All of KBULG's engagements are coordinated from the KBULG office, which is located at Karlkurla Bushland Park.

Environmental & Community Achievements

- KBULG held its very first Recycled Art Competition and Exhibition named “rECONstructed” in November 2009. In 2021, now its 12th year, the competition and exhibition was viewed by thousands of people at the Western Australian Museum of the Goldfields. The competition was again extremely successful with a great turnout from local community members, with the artworks displaying some of the enormous artistic talent in the Goldfields.
- Over 150 volunteers planted around 3 500 trees, shrubs and groundcover plants, in an area between Centennial Park and Meldrum Avenue that backs onto Gribble Creek, at KBULG’s Annual Community Tree Planting Day in 2021.
- In 2020/2021 over 40,000 plants were propagated in KBULG’s nursery, providing us with necessary plant numbers for tree planting events around town, and allowing thousands of plants to be donated to local community groups, schools and the community.
- A number of gardening enthusiasts entered their gardens into our 2021 Sustainable Garden Quest Competition. Judges were extremely impressed by the gardens’ creative layouts, displaying innovative aspects of waterwise gardening, edible gardening and the use of natives.
- All primary and secondary schools in Kalgoorlie-Boulder and hundreds of students participated in KBULG’s Junior Landcare Program in 2020/2021. Frequently organised activities included tailor-made educational bushwalks, tree planting events on school grounds and classroom talks adapted to the individual needs and interests of classes.
- Updating promotional and community educational material continues to be a key focus. KBULG has increased its social media presence, and is constantly working on updating existing educational materials and interpretive signage across Karlkurla Bushland Park.
- Education distribution is constantly changing as methods of information dispersal change and evolve. KBULG is likewise constantly updating and working on getting information out in as many different ways as possible including our, website, Facebook, Skype and written media like the Kalgoorlie Miner.
- KBULG continues to promote the conservation significance of the Great Western Woodlands through conducting educational bushwalks for school students in the community and visiting schools from the region, at community events and through donating and distributing the Great Western Woodlands field guide & pamphlets to schools, sponsors and community partners.
- All outcomes were achieved within this reporting period across all projects and activities. All measurable outcomes relating to projects and activities have been enhanced from previous years.

KBULG & The Keep Australia Beautiful WA Council

Educate  Communicate  Participate

Tidy Towns - 2021

In collaboration with the City of Kalgoorlie-Boulder, KBULG again entered Kalgoorlie-Boulder into the 2021 state-level **Tidy Towns Sustainable Communities Competition** and was a finalist for the category:

- *Community Action and Wellbeing*

The community stepped up to show their resilience and share community spirit in the many events and projects that were organised and conducted throughout the period.

KBULG was able to showcase the many projects that community members had organised throughout the period. The residents of Kalgoorlie-Boulder worked hard using creativity and kindness to help keep moral up during a turbulent and uncertain time.

KBULG and Kalgoorlie-Boulder were represented at the 2021 Tidy Town Awards by Kim Eckert (CEO) and Gabrielle Scannell. While Kalgoorlie-Boulder did not win the nominated category, Kim Eckert was awarded the Leadership award.

Keep Australia Beautiful WA & KBULG Community collaboration

KBULG and Keep Australia Beautiful have continued to work together to promote the anti-littering message at our annual environmental focused events. The KAB WA team also attended the 2021 Tree Planting Day and ran a clean-up session alongside the tree planting event. This collaboration has led to a substantial amount of litter being removed from our city and fun interactive activities designed to educate being run at our events. Shirley Brindley from Keep Australia Beautiful deserves a special mention for not only the collaborative work she does with KBULG, but also the collaborative work she does with the whole Western Australian community.

Projects and Activities

MEMBERSHIP

In 2003 KBULG introduced the possibility of becoming a member of our organisation and being enlisted as a friend of KBULG. During the 2021/2022 time period the number of registered members approximated 635. KBULG regularly updates its members with information about its activities and upcoming events, while also encouraging members to get involved in Landcare activities and to assist KBULG with the organisation and delivery of events.

KBULG is very grateful to those members who contribute their valuable leisure time to various aspects of KBULG's work, including nursery work/Karlkurla Bushland Park maintenance and stallholder activities at events. It is an extremely rewarding and gratifying privilege for the KBULG team to witness a growing interest in conservation activities among community members from all age groups and cultural & professional backgrounds.

VOLUNTEERING AT KBULG

KBULG is open to anyone who wishes to volunteer at the nursery regardless of skill level or mobility. KBULG has several volunteers, who with their carers, come on a regular weekly basis to volunteer at the nursery. We are lucky to have them and enjoy the diversity they bring to KBULG.

Every Wednesday for the duration of Term 2, 2022 Claudia Becker and her students from Eastern Goldfields Education Support Centre (EGESC) spent their mornings at the KBULG Community Nursery in Karlkurla Park. They have participated in various volunteer nursery tasks including propagating, re-potting, weeding, watering and tidying. The students were involved with preparation of the seedlings for the Kalgoorlie-Boulder National Tree Planting Day event. They arranged the plants into mixed species trays and moved them from protected areas of the nursery into the "hardening up zone" to prepare for the big day. A number of the students attended the Tree Planting event and helped green the community of Kalgoorlie-

Boulder. Their time spent at the nursery, provided opportunities for the students to assist volunteer organisations within the city of Kalgoorlie-Boulder, participate at a national environmental event and build a variety of life skills.

NATIVE PLANT GROUP

Native Plant Group continues to be a popular morning where community members are able to come to the nursery and learn propagation skills and learn planting techniques specific to species native to the Goldfields. During the restriction set by the Premier NPG had to be organised a little differently to ensure that they met the conditions of the restrictions. Thus Mini-NPG was established, the numbers were reduced but held more often to accommodate. After receiving feedback on last year's Saturday Native Plant Group events, KBULG has shifted the NPG from Sunday to Saturdays to provide community members with a better chance of attending the morning event. NPG is now held one Saturday a month from 9am to 11am and all are welcome.

Projects and Activities (continued)

Educate  Communicate  Participate

KBULG JUNIOR LANDCARE

A major focus of all aspects of KBULG's work and envisaged future projects is the education of younger generations, providing for a more sustainable future of the Kalgoorlie-Boulder region and all of Australia. The Junior Landcare Program (JLP) is thus one of KBULG's most significant priorities and KBULG continues to assess the success of ongoing education activities and opportunities for new projects involving the young.

Over the last year all Kalgoorlie-Boulder schools have been involved in environmental activities, with KBULG inviting all school teachers of the region to benefit from the organisation's environmental expertise and welcoming any type of interest from schools in educational programs. KBULG accommodated any request from schools in relation to Junior Landcare education and over the last year continued to go out of its way to respond to specific requirements. Frequently organised activities included educational bushwalks with the duration and educational content adapted to the class needs, tree planting events on school grounds and classroom talks & activities (with a strong emphasis on promoting sustainable resource use and conservation of biodiversity). KBULG provided schools with regular updates, information and reminders about its activities, in addition to encouraging schools' involvement in KBULG's major community events such as the rECONstructed Art Competition, the Annual Clean-up Kalgoorlie-Boulder Day and the Annual Kalgoorlie-Boulder Tree-Planting Day.

Over the last year KBULG received exceptionally positive feedback from participating schools in regards to the group's ongoing commitment to Junior Landcare education.

July 2021 saw KBULG participate as a judging organisation in a much anticipated EGC organised event, HackED. The theme of the 2021 event was Climate Change and students were challenged to come up with solutions to the problem of climate change and pitch their idea to the judging organisations. The day saw the students get creative and consider how human impact can positively and negatively affect the environment on a local and global scale. Students considered topics like waste, travel, building materials, water and many others.

The program encourages the young generation to gain

an appreciation of the unique biodiversity values of the region, and to actively consider the implications of urban and industrial developments.

KBULG is grateful to Northern Star Resources who continue to provide funding and on-ground support to the program.

UPGRADES TO THE FACILITIES AND IMPROVED ACCESS TO THE NURSERY FOR ALL

KBULG is constantly working to make improvements to our Community Nursery this year that over the years has included projects such as the installation of a 15 metre Stratco kit shed that was purchased with funds provided by Evolution Mining and built with the assistance of the Section 95 Prison Crew.

Thank you Boulder Rotary for once again sponsoring KBULG. Boulder Rotary's funding provided for the purchase of new nursery work tables. These tables are essential in our nursery by providing good ergonomics whilst working with the plants in the nursery.

Projects and Activities (continued)

MEDIA

KBULG is regularly featured in the local media and over the 2020/2021 period numerous articles reporting about KBULG's activities, events and various projects were published. KBULG aims to reach a diverse range of community members with information about its activities and ongoing projects, and therefore invests considerable efforts into maintaining fruitful working relationships with a variety of media outlets, including but not limited to: the Kalgoorlie Miner, Radio West, ABC Radio and GWN.

KBULG proactively informs the local media about its activities and responds to requests for interviews or other information in a timely manner. Our successful working relationships with media outlets encourage KBULG's frequent local news presence, numerous feature articles, and regular interviews with KBULG staff.

NEWSLETTERS

KBULG's community bi-annual newsletters are reflections of KBULG's ideals and values and are an effective way of disseminating information to the wider Kalgoorlie-Boulder community. They feature environmental education, sustainable living tips, earth friendly kids projects, flora and fauna information and a look at what KBULG has been doing within the community.

The four-page, coloured, centre-spread newsletter is featured in the Saturday edition of the Kalgoorlie Miner. With the newsletter content presented in an entertaining and easily understandable way, KBULG consistently receives exceptionally positive feedback from the community. Any interested individual can also request the latest issue of the newsletter from KBULG and additionally they can download it from the KBULG website.

SOCIAL MEDIA & WEBSITE

With the growing use of social media, community engagement in our projects and activities has become increasingly straightforward and effective. KBULG's Facebook page is very active and publishes daily posts. The page is currently followed by over 1200 people, with numbers steadily increasing. In addition to sharing KBULG's events and activities with a growing number of Facebook followers, KBULG provides news and recommendations on sustainable living and green households through multiple weekly posts. We also utilise Facebook to promote our Partners and Sponsors.

KBULG has recently also joined the world of Instagram and can be found at @kbulg_1994. The Instagram page was established in August 2021 and has over 130 followers with more followers joining weekly.

KBULG's website facilitates public access to a wealth of information about KBULG's projects & activities, upcoming events, and the region's conservation needs. A large proportion of membership requests are received via the online membership form, available as a website link. The website can be viewed at www.kbulg.org.au.

Projects and Activities (continued)

Educate  Communicate  Participate

KBULG'S SPECIAL EVENTS SHOWCASE COMMUNITY INTERACTION

Over the last year KBULG has organised family-friendly events to raise the community's awareness about the Community Nursery and KBULG's many projects & activities.

DISPLAYS, EXPOS AND FESTIVALS

KBULG has always maintained its status as the Goldfields most active environmental community organisations, this year has been no different. KBULG was present at both the 2021 Spring Festival and the 2022 KBCCI Community Expo where KBULG staff engaged the community by answering questions, encouraging people to sign up and become part of a friendly network and by selling local native plants from the community nursery. The KBULG marquee purchased with the aid of Lotterywest has made a huge impact to staff and volunteers at our events providing shelter and shade.

Our public displays and stalls enable KBULG to raise awareness on local environmental issues, and to share educational materials and advice with its diverse target audience. KBULG's presence at events also allows the organisation to promote its many environmental projects and activities, and to raise environmental awareness within a fun setting.

COMMUNITY GROUPS

The KBULG Community Nursery is much utilised by many of the other community groups and organisations in the Goldfields. The Rotary Club of Boulder, the Goldfields Naturalists and Artgold Inc. are just some of the groups who request the use of our facilities to host small events. These events often are inclusive of the overall community and so providing our facilities to these groups benefits the wider community.

Likewise, KBULG is a staunch supporter of other community groups and organisations and we work with organisations and organise KBULG run activities at their events to show our support.

KBULG has happily assisted other organisations with their events in the past year including but not limited to:

- ◆ Science Night - Museum of the Goldfields
- ◆ Bird surveys - Goldfields Naturalists
- ◆ Planting Positive - KBVC & Hope Community Organisation
- ◆ Street Party - Boulder Rotary Club
- ◆ The Spring Festival - KBCCI
- ◆ Community Expo - KBCCI
- ◆ Kalgoorlie-Boulder Schools - celebrating NAIDOC
- ◆ GEMG Conference - Northern Star Booth
- ◆ World Environment Day - Evolution Mining
- ◆ WA Day - Museum of the Goldfields

KBULG is open to any invitation to participant in community events as long as they align with our missions "Better environment. Better lifestyle" and vision "Communicate, Educate, Participate".

Projects and Activities (continued)

ANNUAL TREE PLANTING DAY

KBULG's Annual Tree Planting Day, the region's major conservation-focussed event, enjoys steadily growing popularity among residents and attracts many environmentally-conscious individuals and families. KBULG and the CKB Council select a barren area in Kalgoorlie-Boulder for re-vegetation each year and this year's tree-planting day, organised on Sunday, 1st August 2021, focused on revegetating a section of the bare area between Centennial Park and Meldrum Avenue. The area backs onto Gribble Creek and continues on from the 2019 Tree Planting Day event.

Approximately 150 hard-working volunteers assisted KBULG and the CKB to plant 3500 seedlings which perfectly filled up the space developed by the CKB. Because of the wonderful community support, in particular from local industry professionals and families, the seedlings, donated from KBULG's community nursery and selected to be well suited to the harsh environment of the site, were planted in just under 2 hours despite the wind, rain and cool temperatures.

Our community is one of a kind and the willingness to pitch in and lend a hand was in particular on show as people

from all walks of life came out in the cold weather and got a little bit dirty for a great cause. The joint effort of organisations and everyday citizens to work together for a more sustainable city is a pleasure to witness and be a part of. Each and every participant was deeply committed to do their bests to contribute to the 'Greening of the Goldfields' and an enhanced lifestyle for the entire community, as well as building on the sense of community. To reward participants for their hard work and motivation KBULG organised a free sausage sizzle for everyone and thanks to the generosity of MacDonal'd's was also able to hand out vouchers for a small treat, a welcome thank you for the volunteers.

KBULG could not have completed the event without the crucial support from the City of Kalgoorlie-Boulder who also carried out important site preparation works, provided on-ground support on the day and have maintained the area since allowing the area to flourish. KBULG's core sponsors KCGM, Northern Star Resources, Evolution Mining provided essential resources for the events, and the Kalgoorlie Miner sponsored the advertising. KBULG would like to once again thank everyone for a highly successful and fun day of greening Kalgoorlie-Boulder.

SUSTAINABLE GARDEN QUEST

KBULG's Sustainable Garden Quest has established itself as an important spring event for everyone engaged or interested in sustainable, waterwise gardening within the Kalgoorlie-Boulder Region. In 2021 the competition again met its core objective - promoting, educating, and raising awareness about opportunities and varied techniques for waterwise gardening. The competition consisted of five separate categories and the different category winners were announced on Facebook and via email on the 10th of September and on the 11th in the Spring Newsletter. Category winners received a \$250.00 Goldfields Little Loads voucher donated by the business. They also received the knowledge and help from staff at Little Loads when they went in store to collect their voucher. Due to high publicity of the event and enthusiastic uptake of the community the event has demonstrated to be very effective in promoting innovative ideas for waterwise gardening and sustainable landscaping.

The event calls for everyone engaged or interested in waterwise gardening and sustainable landscaping practices within the Kalgoorlie-Boulder Region to share their passion and individual approaches with like-minded residents, with the KBULG Team ready to provide encouragement and useful advice as well as giving out prizes. Winning entries of last year's competition were selected from following five categories: Residential (Owner & Tenant combined), Commercial (Business and Industry combined), Schools, Community Organisation, and Edible Garden. The winners can be found on our website.

The Water Corporation is the major sponsor of the event as it aligns with the Corporation's vision to promote sustainable water use to a wide audience. KBULG is thankful to the Kalgoorlie Miner who sponsored the advertising of the competition as in previous years.

THANK YOU

Projects and Activities (continued)

RECONSTRUCTED ART COMPETITION

KBULG's rECONstructed Art Competition and Exhibition has become a major annual community event, and inspires individuals, community groups and schools to get creative while helping to raise awareness about the waste cycle and the importance of recycling by spreading the key message of Reduce, Reuse, and Recycle.

Coinciding with National Recycling Week, KBULG once again encouraged the community to submit artwork for this exciting and thought-provoking exhibition.

Held in November 2021 the rECONstructed Art Competition again met its objective to reach a wide audience, in particular the younger generation, to communicate the significance and complexity of the waste cycle in our everyday lives.

The competition comprised of 7 separate categories with cash prizes for each, and judges had the difficult task to choose from some superbly creative pieces of artwork from Kalgoorlie-Boulder and surrounding regions.

The thoughtfully designed artworks from recycled and no longer used materials were exhibited at the Western Australian Museum of the Goldfields in the British Arms Hotel in an educational, and highly visible 2-week Arts

exhibition that proved popular with a wide audience consisting of locals and visitors to the popular landmark.

Competition category winners were announced at the exhibition opening night on Friday, 12th November 2021. The event was themed "Anything Goes"

and received 24 amazing entries of varied mediums and style. KBULG and the independent volunteer judges from art and waste management backgrounds were delighted by the variation in entries. KBULG is proud to have attracted the continuous interest of local schools and community groups in this unique event .

KBULG is grateful to the event sponsors KCGM, the Museum of the Goldfields, the Kalgoorlie Miner, Evolution Mining and the Water Corporation, in addition to its core sponsors the City of Kalgoorlie-Boulder and Northern Star who also supported the event.

reconstructed

2021 Category Winners

Community Group: Lullaby Lane Nursery GCCC - 'Imaginative Creation'

Primary School: Hannans Primary School - Room 9 'Karlkurla Park'

Junior Individual: Molly Bartle 'Dream & Comfort'

3D Sculpture: Mandy Bourke 'Garden'n Angel'

2D Sculpture: Gudrun Sahn 'Seahorse'

High School: Letitia Favas 'Perspective Reflections'

People's Choice: Hannans Primary School - Room 9 'Karlkurla Park'

Projects and Activities (continued)

CLEAN-UP KALGOORLIE-BOULDER DAY

AVOID, REDUCE, REUSE and RECYCLE! One of KBULG's key objectives is to spread this message. This entails educating the wider community about aspects of the waste cycle such as relevant waste decomposition time spans, whilst also sharing innovative waste reduction and recycling ideas with residents. In addition to ongoing education projects that educate the community about methods of waste prevention and waste recovery, KBULG hosts an annual Kalgoorlie-Boulder Clean Up Australia Day – a nationwide initiative promoted through state-specific Keep Australia Beautiful Councils.

The Clean-Up Day event is held at a different location every year, selected based on litter quantity, conservation significance and visual amenity priority. The site for the 2022 event was a past tree planting site.

The 2022 event was held on the 13th March and was well attended by over 70 residents of Kalgoorlie-Boulder and surrounds. The day resulted in the removal of 11 tonnes of waste from an area of bushland located on Vivian street behind the Boulder Discovery Park.

The items removed not only effect the visual amenity of the area but also have a negative impact on the native animals and have the potential to introduce toxic chemicals into the environment.

The event was supported by the Green Team from the City of Kalgoorlie-Boulder who not only collected rubbish but also distributed equipment, helped with registrations and at the BBQ.

The many hard-working volunteers were rewarded with a sausage sizzle and various raffle prizes, making this event a fun morning and achieving a great outcome. Thank you to all our sponsors and the people of Kalgoorlie-Boulder for all your hard work and a morning full of smiles!

Projects and Activities (continued)

KBULG AND NAIDOC WEEK CELEBRATIONS

KBULG regularly attends NAIDOC events on the invitation of Goldfields schools, primary and secondary. We provide a range of activities depending on school requests and student age. We aim to develop both environmental and cultural understanding and knowledge.

KBULG was approached by KCGM to assist with a seed planting activity for the North Kalgoorlie Primary School NAIDOC week in 2021. Specimens of local flora were provided, as well as informational material about the plants and their care.

WORLD ENVIRONMENT DAY & RECONCILIATION WEEK

KBULG and the CKB recognised Reconciliation Week at Karlkurla Park on Monday 30th May, 2022. That morning, employees attended a Culture Tour of Karlkurla Park to acknowledge Reconciliation Week. Nine CKB employees participated in the tour, exploring bush tucker and bush medicine flora of the area, and the rich and complex history of the Goldfields.

Thursday 2nd June, KBULG teamed up with Evolution Mining to host a cultural tour of Karlkurla Bushland Park to celebrate international World Environment Day. KBULG and Evolution worked to organise a morning event, where employees attended a Culture Tour of Karlkurla Park to acknowledge World Environment Day and Reconciliation Week.

Nine Evolution Mining employees participated in the tour, discussing past mistakes surrounding environmental protection and Australia's history, looking at what has been done in the past and what could be done better moving forward with culture and the environment.

Projects and Activities (continued)

SCHOOL INCURSIONS & EXCURSIONS

KBULG continues to actively engage with the students of Kalgoorlie Boulder. Our aim is to educate and create awareness about the environmental impacts of mining and agriculture both historically and in the present day.

We also wish to foster an interest in the biology of the park and the greater Western Woodlands area, we do this by bringing awareness to key species in the park, explaining their significance not only as flora but also their significance to the aboriginal population as bush tucker and bush medicine.

This year KBULG was approached by both local schools and non-local schools to conduct incursions, excursions and participate in school hosted events. Some of these events included Hacked at EGC, Year 11 and 12 interviews, NAIDOC celebrations at schools and invitations to come to schools to present and run activities.

Our park tours continue to be a popular service with schools, all year groups, both local and those from outside the Goldfields Region.

Mrs Buchanan and her pre-service teacher Miss Cross organised a tour for the year two's from Hannans Primary School and despite windy and wet weather the students enjoyed the tour learning about various flora in Karlkurla Bushland Park, sustainability and local indigenous knowledge. The children created artwork of local flora made of recycled materials which they entered in the rECONstructed Art Exhibition and subsequently won the Primary School category.

KBULG & THE WASTE SORTED SCHOOLS PROGRAM

Working with CKB composting program

KBULG has worked with Waste Wise Schools in the past and this relationship has continued into the 2021/2022 year. KBULG provides the schools, primary and secondary, with the tools and assistance to become more waste sustainable on behalf of the Waste Sorted Schools Program.

Throughout the 2021/2022 year period KBULG has completed:

- 3 physical waste audits
- A visual waste audit
- Presented on various topics including composting, food waste reduction, and waste audit systems, in person and over zoom.
- Met with multiple schools and staff members to discuss various waste related projects.
- Met with various schools sustainability committees or environmental ministries to discuss various topics.
- Continued to promote social media posts from Waste Wise Schools and other sustainable organisations to the wider community
- Maintained the Environmental Education and Sustainability Network. Facebook group

KBULG continues to actively work with schools to provide assistance with all their sustainable initiatives, not only those related to waste, including vegetable gardens, water wise gardens and education in landcare topics, historical and current.

Projects and Activities (continued)

SHOWCASING LONG-TERM RELATIONSHIPS WITH SPONSORS

KBULG receives strong support from its many industry partners. Northern Star/KCGM is one of KBULG's core long-term sponsors and continues to be. VOCONIQ is a Northern Star sponsored program that looks to interact with the residents of Kalgoorlie-Boulder to ensure that Northern Star is in touch with the concerns of the community. KBULG has been actively involved in this study, not only by participating, but encouraging members to participate to ensure they are heard and that Northern Star is connecting with the residents of Kalgoorlie-Boulder.

The City of Kalgoorlie-Boulder continues to be a major sponsor for KBULG through the renewal of the Annual Grants Program and its acceptance of KBULG as a recipient for another 3 years. As a

major sponsor the CKB ensures that KBULG is able to continue to provide free services for the schools of Kalgoorlie-Boulder and run community events throughout the year.

SHOWCASING NEW RELATIONSHIPS WITH SPONSORS

Goldfields Little Loads has enthusiastically jumped on board as a sponsor for the Sustainable Garden Quest and the lucky winners of each category were rewarded with a \$250.00 voucher for Goldfields Little Loads.

Kalgoorlie Case and Drill supports the annual Tree Planting Day event through the donation of funds towards the purchase of refreshments to feed the hardworking and hungry volunteers.

PROMOTING INDIGENOUS KNOWLEDGE & CULTURAL UNDERSTANDING

KBULG regularly conducts Culture Tours within Karlkurla Bushland Park, employing Aboriginal guides. A KBULG guide together with Aboriginal guides takes guests on a walk through the park, explaining our local flora and fauna, bush tucker and bush medicine. Guests then enjoy billy tea/coffee and homemade damper with quandong jam a local specialty. This unique experience of a KBULG guide working alongside indigenous guides to share their combined knowledge with the community and visitors is truly rewarding. It also brings the community together in the hope to bridge the social issues we have been facing.

KBULG's employment of local guides enables local Indigenous residents to share their knowledge on bush tucker & bush medicine, and to convey their stories to the community. The enthusiastic interest of cultural trail participants invokes feelings of cultural pride and fosters cultural understanding within the community. KBULG also continues to expand its engagement with aboriginal youth who regularly visit the nursery to partake in education and training courses.

Chairperson's Report 2021 - 2022

Educate  Communicate  Participate

Another AGM has come around, which they seem to do faster and faster each year...well that is what it seems like anyway.

Thank you to all the sponsors who continue to support the wonderful work that Kalgoorlie-Boulder Urban Landcare Group does. It is with their support that KBULG has been able to do and participate in wonderful activities over the year such as:

- Kalgoorlie-Boulder Community Tree Planting Day
- Sustainable Garden Quest
- Reconstructed Art Competition
- KBCCI Community Expo
- Kalgoorlie-Boulder Community Clean Up Day
- Celebrate WA Day at the Museum of the Goldfields
- Kids Fest
- Spring Festival
- Several School Visits
- Lighting of the Christmas Tree

Thank you to the wonderful staff who have organised, planned, set up and cleared up from all of these events. We know that there are many hours in getting things organised, particularly the large events such as the Tree Planting Day and the Clean up day where 11 of rubbish was removed.

Thank you to the Kalgoorlie-Boulder community who get behind our activities each year. There were over 70 volunteers who came to help clean

up in Boulder this year followed by over 200 volunteers who assisted with planting out 5000 plants at the tree planting day. This really shows what a wonderful community Kalgoorlie-Boulder is and how proud we are to be a part of it.

Our volunteers who help out in the nursery are also an invaluable part of the organisation – Thank you for putting in your time and effort to come along and assist. If you would like to volunteer through the week, please get in touch...

This year has been very busy and next year is shaping up to be just as busy, so there are lots of opportunities for our members to get involved. Please keep an eye out on our Facebook page to keep up to date with what is going on.

Hope to see you through the year.

Kind regards,

Peta Osborne
Chairperson
KBULG

Conclusion

KBULG's vision is to work for a *better environment and better lifestyle* for the people of the Goldfields by encouraging *communication, education, participation and collaboration*.

The group aims to involve the community in all its activities and events, and is committed to working with other community groups, schools, business and government to achieve its goals.

The Kalgoorlie-Boulder Urban Landcare Group, previously the Goldfields Dust Abatement Committee, has conserved and established native vegetation in the Goldfields

for almost 50 years. Due to past, present and future impacts and threats to the Kalgoorlie-Boulder environment, planning and promoting our activities and the need for conservation and rehabilitation of the Goldfields environment is given high priority.

KBULG has achieved all aims, objectives and outcomes over this reporting period and is committed to continuing to serve the Goldfields Community and its environment.

Once again a very big thank you to all of our sponsors, partners, supporters, staff, committee and members.

Kalgoorlie Boulder Urban Land Care Group Independent Auditor's Report to the Members

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Kalgoorlie Boulder Urban Land Care Group (the association), which comprises the Statement by Members of the Committee, the Income and Expenditure Statement, Statement of Financial Position as at 30 June 2022, a summary of significant accounting policies and the certification by members of the committee on the annual statements giving a true and fair view of the financial position and performance of the association.

In our opinion, the accompanying financial report presents fairly, in all material respects, the financial position of the association as at 30 June 2022 and [of] its financial performance for the year then ended in accordance with the accounting policies described in Note 1 to the financial statements and the requirements of the Associations Incorporation Act 2015.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the association in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared to assist the association to meet the requirements of Associations Incorporation Act 2015. As a result, the financial report may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Responsibilities of the Committee for the Financial Report

The committee is responsible for the preparation and fair presentation of the financial report in accordance with the financial reporting requirements of the Associations Incorporation Act 2015 and for such internal control as the committee determines is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the committee is responsible for assessing the association's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the committee either intends to liquidate the association or to cease operations, or has no realistic alternative but to do so.

Kalgoorlie Boulder Urban Land Care Group
Independent Auditor's Report to the Members

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit.

We communicate with the committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Signed on : 05 September 2022

Kalgoorlie Boulder Urban Land Care Group
Statement by Members of the Committee
For the year ended 30 June 2022

The Committee has determined that the association is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies outlined in Note 1 to the financial statements.

In the opinion of the Committee the Income and Expenditure Statement, Statement of Financial Position, and Notes to the Financial Statements:

1. Presents fairly the financial position of Kalgoorlie Boulder Urban Land Care Group as at 30 June 2022 and its performance for the year ended on that date.
2. At the date of this statement, there are reasonable grounds to believe that the association will be able to pay its debts as and when they fall due.

This statement is made in accordance with a resolution of the Committee and is signed for and on behalf of the Committee by:

Chairperson

Treasurer

Kalgoorlie Miner

Thank You

*to the Community of Kalgoorlie-Boulder,
KBULG Staff, the KBULG Committee,
Members, Supporters, Partners and
Sponsors for an extraordinary 2021/2022!*

*We are looking forward to many exciting
projects, activities & events working
towards a more sustainable future
with you in 2022/2023*
